

The ultimate all-rounder.

The TDM900/A is a universal performer, built to handle whatever you throw at it, from unforgettable touring trips to your everyday commute.

It offers the ultimate in versatility, with a flexible big-twin powerplant, well-balanced chassis and excellent comfort for both rider and passenger.

Its all round ability is the result of some careful design. The compact, fuel-injected, parallel twin engine delivers stacks of useable power that is easy to feel, and excellent traction thanks to the 270-degree crankshaft. It's the kind of easy-going engine that'll have you riding all day.

- Liquid-cooled 4-stroke, 2-cylinder, 5-valve engine
- Highly versatile bike for all occasions
- Relaxed riding position for extra comfort
- Long-range fuel tank and luggage rack for touring
- Beautifully sculpted aluminium frame
- Easy handling and brilliant braking

***Yamaha Motorbikes:
From urban jungle to
open road.***

At Yamaha we have a reputation for breaking through boundaries. We've proven ourselves repeatedly by winning competitions on the tarmac and in the dirt, and you can count on our legendary spirit for high-tech bikes that also deliver winning performances on the city street or the open road.

Our machines are made to impress, from the intimidating muscular grace of the XJR1300 to the Supermotard flair of the XT660X or the zippy playfulness of the YBR250.

But they're also made to back up those looks with serious performance – with engines made for quick acceleration, and chassis designed for comfort and handling whether touring or on your daily commute.

Big power for town and country riding

Your needs in the city and out on the open road can differ dramatically. Thankfully, the versatile, compact, fuel-injected, parallel twin powerplant of the TDM900/A delivers stacks of useable power that is easy to feel, with sweet pulses that you can really feel. Wherever you go, it's got the power to get you there.

Beautiful aluminium frame

In keeping with the aggressive styling of all our street bikes, the TDM900/A has the looks to turn heads. You'll find it looks just as impressive at a city-centre traffic signal as peeling back the miles on a country lane. And it's made with comfort in mind too, with a weather-beating upper fairing and neutral, easy handling.

Ready to tour

This is one street bike that you'll be happy to take on a long tour. The TDM900/A comes with some important sport touring extras, including a long-range, 20 litre fuel tank and an inbuilt luggage rack. It's just what you need to get away and explore the limits of this wonderful machine.

Complete comfort

You'll want to take someone with you on those longer cruises in the country, or even just when taking on the city streets. The TDM900/A's incredibly comfortable seating for passenger and rider means easy riding wherever you go. So mount up, and go exploring.

Super-responsive suspension

Experience even more comfort with the TDM900/A's wonderfully responsive and forgiving suspension. Whether you are tackling pot-holed city streets, or uneven country lanes, the telescopic forks at the front and swingarm (link suspension) at the rear will ease every lump and bump from the road.

Secure braking

Feel the responsiveness of the TDM900's braking system and you'll soon feel confident that it can take whatever the conditions throw at you. The dual disc, 298 mm front brakes and single disc, 245 mm rear brake mean it can handle city jolts as well as any surprises offered by the open road, and the TDM900A comes with ABS for even greater security.

ENGINE	
Type	Liquid-cooled, 4-stroke, forward-inclined, parallel 2-cylinder, 5-valves, DOHC
Displacement	897cc
Bore and stroke	92.0 x 67.5 mm
Compression ratio	10.4 : 1
Max. Power	63.4 kW (86 PS) @ 7,500 rpm
Max. Torque	88.8 Nm (9.1 kg-m) @ 6,000 rpm
Lubrication	Dry sump
Carburettor	Electronic Fuel Injection
Clutch type	Wet, multiple-disc coil spring
Ignition	TCI
Starter system	Electric
Transmission	Constant mesh, 6-speed
Final transmission	Chain
CHASSIS
